

Solo prompt:

Both pages should contain:

- a wordmark: Zoë Babian Photography
- a nav: Home, Blog
- contact info in the footer

The landing page should contain:

- a gallery of 9 images with titles (you can choose from the images on my instagram if you like)
<https://instagram.com/zoebabian/>

The blog page should contain two sample blog posts, using Lorem Ipsum as the paragraph text:

1) title: The Photobooth

photo: photobooth.jpg

2) title: Beyond Brunch in Brooklyn

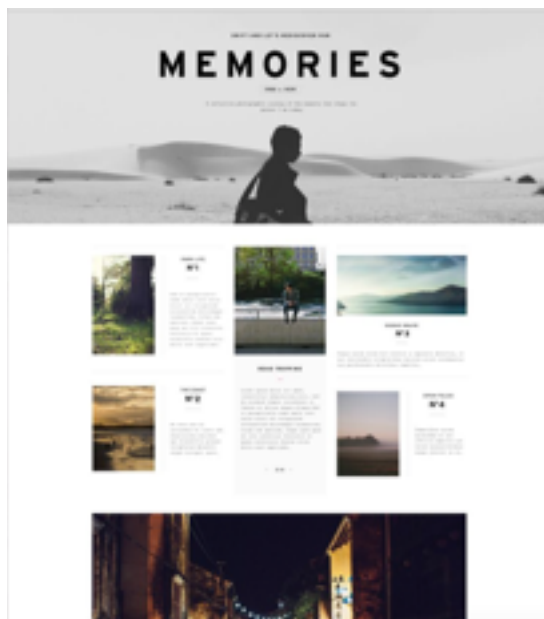

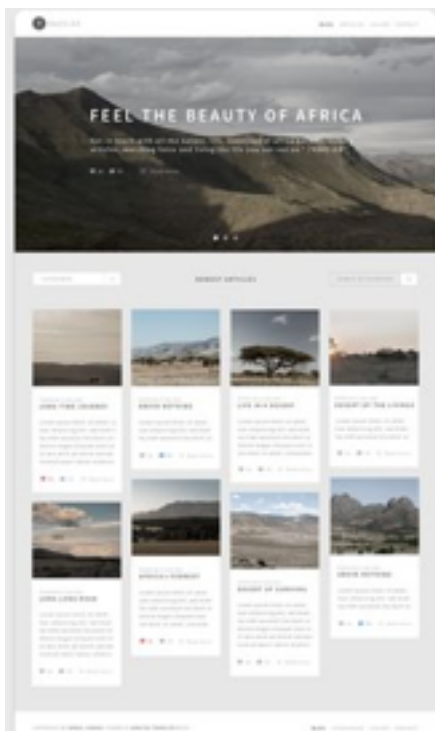

photo: brunch.jpg

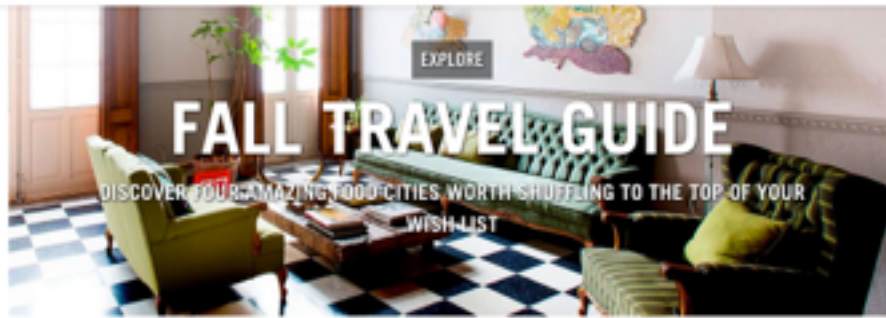

I'd like the site & blog to be clean and modern, but take inspiration from newspaper article layouts & font styles. I'd prefer a palette of very light colors, black, and white.

For feedback on your project, please schedule a 1:1 with a mentor! You're welcome to email them for feedback before submitting your Unit 5 project (for steps 1-2).

This will allow to you practice re-designing and coding a site from scratch, which will help you as you continue on creating your own site. The more practice, the better!
